Students must only view web sites selected or approved by their teachers, and may not enter other sites without permission. Fifth through eight grade students will be allowed to do purposeful searches for specific projects with teacher permission and under direct adult supervision.
- ◆ Children should never give out personal information on the Internet. This includes name, address, phone number, parent's name, or school address.
- ◆ Students should tell their teachers and parents immediately if they see or read anything on the computer that makes them uncomfortable.
- ◆ Students should only use their own network folders. They are not to give out their passwords or let anyone else use their personal folders.
- ◆ Students may not load or download programs onto district computers. This includes programs like AOL, AOL Instant Messenger, AOL Chat, Yahoo Instant Messenger and Yahoo chat.
- ◆ Students should respect the rights and feelings of others using the computers. This includes sharing computers, and treating all students respectfully.
