

INSTRUCTION

Selection of Library Media Center Material

Materials for the Library Media Center are selected by the professional media staff and with due regard to suggestions from the faculty, parents, and students. Final selection is made by the media specialist within budgetary allotments. Professional reviews, standard catalogs, and other selection aids are used by the media specialist and the faculty to guide them in their selection.

In order to maintain a current and highly usable collection of materials, the media specialist will provide for continuing renewal of the collection by the addition of up-to-date materials, and the judicious elimination of materials which are no longer used.

The Superintendent/School Administrator shall establish the procedures to be used for the review and recommendation of educational material by members of the instructional staff.
